PURSUANT TO CHANGES TO BE)
EFFECTIVE JANUARY 1, 1984)

O R D E R

Introduction

On December 29, 1983, the Commission issued an Order in this case approving interim access service tariffs and establishing an interim compensation plan, pending a complete investigation of issues. Subsequent Orders have addressed various issues. This Order will address the issue of interLATA revenue requirement to be recovered through Universal Local Access Service ("ULAS") tariffs. Other issues still pending before the Commission will be addressed in separate Orders, including intraLATA revenue requirement, intraLATA pool administration, billing and collection services, and access service tariff implementation.

InterLATA and ULAS Revenue Requirements

InterLATA access compensation to local exchange carriers in 1984 totaled \$63,506,000.¹

As indicated in the Commission's Order of November 20, 1984, absent a showing of cost of service information by local exchange carriers, interLATA access compensation in 1984 will be used to determine baseline interLATA revenue requirement, except in the cases of Cincinnati Bell Telephone Company ("Cincinnati"), General Telephone Company of Kentucky ("General"), and South Central Bell Telephone Company ("SCB"), where other information filed by these carriers has been used to determine interLATA revenue requirement in this and other cases. Thus, baseline interLATA revenue requirement is \$66,731,000.² This baseline interLATA revenue requirement is subject to review and change based on 1985 revenue experience, absent a showing of interLATA cost of service by local exchange carriers.

In 1985 interLATA residual revenue requirement to be recovered through ULAS charges is \$5,776,000, not including Cincinnati.³ This revenue requirement is subject to review and change May 31, 1986, or upon any changes in access service rates prior to May 31, 1986. All local exchange carriers except Cincinnati, General, and Salem Telephone Company ("Salem") have an

2 See Table 2.

3 Ibid.

interLATA residual revenue requirement in 1985, based on application of rates to be effective June 1, 1985, to 1984 interLATA minutes of use. The primary driver of interLATA residual revenue requirement in 1985 is a reduction in the carrier common line charge from 6.5 cents to 5.24 cents per interLATA minute of use.

All local exchange carriers except Cincinnati, General, and Salem will be required to file an interLATA carrier common line charge of 5.24 cents per interLATA minute of use, effective June 1, 1985. Cincinnati, General, and Salem may file interLATA carrier common line charges less than 5.24 cents per interLATA minute of use, upon showing that a lower interLATA carrier common line charge will not result in any interLATA residual revenue requirement.

Information filed by SCB used to determine ULAS revenue requirement included adjustments for carrier access billing system expense, which the Commission will not allow, consistent with its Order of February 15, 1985. Carrier access billing system expense is recovered through switched access charges in the interLATA market and should not also be recovered through ULAS charges.

Findings and Orders

The Commission, having considered the evidence of record and being advised, is of the opinion and finds that:

1. Baseline interLATA revenue requirement is \$66,731,000 subject to review and change December 31, 1985.
2. ULAS revenue requirement is \$5,776,000, not including Cincinnati, subject to review and change May 31, 1986.

3. All local exchange carriers except Cincinnati, General, and Salem should file interLATA carrier common line charges in the amount of 5.24 cents per interLATA minute of use.

4. Cincinnati, General, and Salem may file interLATA carrier common line charges less than 5.24 cents per interLATA minute of use, upon showing that a lower interLATA carrier common line charge will not result in any interLATA residual revenue requirement.

5. Carrier access billing system expense should not be recovered through ULAS charges.

IT IS THEREFORE ORDERED that baseline interLATA revenue requirement shall be \$66,731,000.

IT IS FURTHER ORDERED that ULAS revenue requirement is \$5,776,000.

IT IS FURTHER ORDERED that all local exchange carriers except Cincinnati, General, and Salem shall file interLATA carrier common line charges in the amount of 5.24 cents per interLATA minute of use.

IT IS FURTHER ORDERED that Cincinnati, General, and Salem may file interLATA carrier common line charges less than 5.24 cents per interLATA minute of use, upon showing that a lower interLATA carrier common line charge will not result in any interLATA residual revenue requirement.

IT IS FURTHER ORDERED that carrier access system billing expense shall not be recovered through ULAS charges.

Done at Frankfort, Kentucky, this 31st day of May, 1985.

(1) Compensation is based on 1984 usage applied to tariffs to be effective June 1, 1985. A CCC of 5.24 cents was used in all cases.

(2) Compensation is based on information furnished by Continental and General.

(3) Compensation is based on 1984 data, except in the cases of General and South Central Bell, where revised price out information was provided.

(4) Revenue requirement is based on 1984 compensation, except in the cases of General and South Central Bell, where revenue requirement has been determined otherwise in Orders of the Commission.
